

Sinclair Broadcasting's plan to show a clearly partisan, anti-Kerry, ad as a documentary without equal time for a similar pro-Kerry ad (or documentary) clearly violates the election laws in both detail and spirit. The timing helps to accentuate the intent.

This situation should be rectified immediately, by either forbidding the broadcast or requiring equal time for the Kerry campaign. The foundation of our democracy is at stake. Elections should not be determined by the Supreme Courts or the Corporate Media. We have these regulations for exactly this reason. I strongly urge you to enforce them.

No wonder international election committees are monitoring this election for the first time in our history.
